

Minnesota State Historic Preservation Office

Contract Archaeologists

Last Updated: 05/01/09

This listing is comprised of individuals and firms who have expressed an interest in undertaking contract archaeology in the State of Minnesota. It is provided for information purposes to those who may require the services of an archaeological consultant. Inclusion on the list does not constitute an endorsement of the consultant's professional qualifications or past performance. The SHPO may remove contractors from the list if no work is completed in Minnesota over a two year period. The SHPO reserves the right to reject contract reports if the principal investigator or other contract personnel do not meet certain minimal qualifications such as the Secretary of the Interior's professional qualifications standards (Federal Register 9/29/83). It is recommended that work references be checked and multiple bids be obtained before initiating a contractual agreement. The SHPO will not recommend specific contractors, but may be able to comment on previous work reviewed pursuant to state and federal standards and guidelines. The SHPO has a file containing the vitae of most principal investigators. The SHPO can be contacted at the Minnesota Historical Society, 345 Kellogg Blvd. W., St. Paul, MN 55102 (651) 296-5434. [* Vita of principal investigators on file at SHPO.]
