

Aitkin, Beltrami, Cass, Crow Wing, & Hubbard County ISTS List

D1 Designer 1: conduct site evaluations and compliance inspections, design ISTS, issue written Certificates of Compliance and Notices of Non-compliance, and issue and maintain inspection reports.

D2 Designer 2: conducting site evaluations and designing ISTS.

INSTALLER: construct, install, alter, extend, maintain, and repair ISTS; ensure all work is done according to a written site evaluation and design report; ensure inspections are conducted for new construction or replacement in areas without ordinance; ensure site conditions allow for construction; provide evidence to verify compliance with applicable requirement; maintain quality control/quality assurance records; and maintain as-builds of all work.

INSPECTOR: evaluate site evaluations and designs; conduct compliance inspections and permitting and inspection activities; issue written Certificates of Compliance and Notices of Noncompliance; and issue and maintain inspection reports.

PUMPER: measure scum and sludge depths for the accumulation of solids and remove these deposits, store and haul septage; dispose of septage; identify problems related to sewage tanks, baffles, manhole covers and extensions, and make repairs, and inspect and evaluate water-tightness of sewage tanks, dosing chambers, distribution devices, valve boxes, or drop boxes.
